

# UKSSH STEPS UP TO THE HIGHEST STANDARDS.

GASSE STUDY

Ribeye Boats' driving ambition has always been to manufacture the best Rigid Inflatable Boats (RIBs) in the world. With beautiful styling and precision finish, every Ribeye is bespoke and instilled with iconic British design cues.

When you set standards that high, everything associated with the brand must be perfect – and that includes the company's stand built at last year's Southampton Boat Show.

When there was a "last minute" change to their stand requirements, Ribeye turned to UK System Scaffold Hire to supply the temporary public staircase that they needed to provide access to the exclusive roof terrace above their Club Ribeye lounge.

UKSSH designed and built the perfect solution – demonstrating the same qualities of customer focus, attention to detail and commitment to health and safety that Ribeye applies to their projects.
